NO. 30

BIG INCREASE IN KENTUCKY COAL OUTPUT

Gain of More Than 5,000,000

Tons Over Corresponding Six Months of 1921.

Lexington, Ky., July 22.—Kentucky produced 17,237,132 tons of coal in the first six months of this year, in sixty-nine working days, according to the semi-annual report of the Department of Mines, issued today by L. Blenkinsopp, chief inspector of mines.

This was a daily output of 250,248 tons, and is a net increase of 5,020,727 tons over the output for the first six months of 1921, the report shows. The output the first half of 1921, was 12,097,168 tons.

"Assuming the mines were operated full time, or twenty-four days each month, the state of Kentucky would produce 72,071,425 tons of coal a year at this rate of production," the chief mine inspector stated in commenting upon the report.

Eight Districts

Each of the eight districts in the state, except the Fourth composed of Knox and Whitley counties, showed an increase over the production for the first six months of last year. The increases ranged from 14 to 53 per cent. The net increase for the entire state over the tonnage for the first half of 1921 was 41½ per cent.

The decrease in the Fourth district was 49,237 tons or 12 per cent under the tonnage for the same period last year. This decrease is accounted for by a decrease in the number of men employed in the district from 1,482 in 1921, to 767 in 1922, says the report.

The railroad strike is contributing to an increasing car shortage, which is cutting down the production about one day's output, or 250,248 tons per week, according to production figures received recently, the report shows.

By Districts

The production by districts in the first six months of 1922 and the production in the same period of 1921 follows:

District No. 1, composed of Hopkins, Webster, Union, Christian and Henderson counties: 2,311,996 tons in 1922 against 1,572,834 in 1921.

District No. 2, composed of Muhlenberg, Ohio, McLean, Daviess and Hancock counties: 2,001,113 tons in 1922 against 1,644,057 in 1921.

District No. 3, composed of Boyd, Carter, Morgan, Lee, Jackson, Breathitt, Laurel, McCreary and Pulaski counties: 559,190 tons in 1922 against 481,445 in 1921.

District No. 4, composed of Knox and Whitley counties: 355,398 tons in 1922 against 404,635 in 1921.

District No. 5, composed of Bell and Harlan counties: 3,693,966 tons in 1922 against 3,102,457 in 1921.

District No. 6, composed of Perry and Letcher counties: 4,306,855 tons in 1922 against 2,968,163 in 1921.

District No. 7, composed of Floyd, Johnson, Lawrence and Martin counties: 1,496,726 tons in 1922 against 72,968 in 1921.

District No. 8, composed of Pike county: 2,541,888 tons in 1922 against 1,196,609 in 1921.

TOBACCO GROWERS ORGANIZE

An informal meeting of dark tobacco growers was held at the Court House yesterday afternoon, for the purpose of planning for the organization of the Co-Operative Marketing Association in the county. A temporary chairman was to be elected and a date selected for a mass meeting of the tobacco farmers which will be addressed by Col. Joseph Pannoneau, District Organizer. We regret that the nearness of our press hour prevented a more detailed account of the meeting. Due notice of further steps will be given in the local press.

Mr. and Mrs. W. M. Fair and Mrs. Elizabeth Taylor motored over to Owensboro yesterday and spent the afternoon with relatives.

HUNDRED THOUSAND EXTRA VOTES OFFERED AS NAMES ARE ANNOUNCED

Send In Your Name and Win Share of the Prizes—Open to Any Person of Good Character—It's an "Everybody Wins" Contest.

AUTO CONTEST AROUSES INTEREST

The list of nominees in the Hartford Auto Contest is made public in this issue and with first publication of names comes announcement of a vote offer which will permit any contestant to securing a flying start by obtaining two subscriptions.

On page four appears a Subscription Ballot worth fifty thousand votes if sent in accompanied by a subscription to the Herald. Use two of them. One with your first subscription and another with the second subscription you procure.

That will give you a hundred thousand votes. Note carefully that the ballot is good only if accompanied by a subscription, and that not more than two of these special ballots will be credited to any one contestant. This ballot will appear for a short time only and only those who act promptly will secure the 100,000 extra votes. This is offered as a reward to those who begin work promptly.

The subscriptions that accompany these special ballots will earn votes according to the vote table and the fifty thousand votes are given as a bonus.

Nomination Week

This week will be known as Nomination Week as it is the best time to enter the race. If your name does not appear in the list and you want a fine prize or wish to earn cash during your spare moments, just send your name to the Contest Manager at the Herald Office without delay, and full information will be sent to you, telling you how to begin and how to win.

If your name does appear in the list the best plan is to secure two subscriptions from relatives or neighbors immediately and send them in so you will receive credit for the 100,000 Bonus Votes.

Many Nominees

The list of names is unusually large, but that is a splendid feature of the race, as it is obvious that winning is always much easier when the vote is divided among a large number of candidates. With so many participants it is unlikely that anyone will secure a very great number of votes and therefore it will be possible to win the larger prizes with a comparatively small number of subscriptions. There may be a number of candidates nominated who will withdraw and of course if a person is not going to take active part in the contest they should withdraw as this is a race of energy, in which effort and that alone will be responsible for success in winning a big prize.

Winning Will Be Easy

It will not be difficult to win a big prize if you start promptly, and those who begin work within the next two or three days will be among the first to start. In starting, secure a subscription or two in your own family and then call upon your close neighbors and write to relatives and best friends whom you cannot see in person. In that way you will secure several subscriptions and a flying start.

Gather the 100-vote coupons industriously. Clip them from every copy of the paper you can find and send them in to be placed to your credit in the next issue of the paper. Ask friends to save them for you. The coupons cannot be held back to be voted later. They must be voted

not later than date which appears at bottom of the coupon.

Subscription Ballots

When you turn in a subscription of one-year a Vote Ballot representing five thousand votes will be given to you. That ballot may be held back to be voted at any time during the contest. In other words you receive vote ballots for your subscriptions and you can reserve those ballots to vote later in the contest. This will be true of all votes secured on subscriptions, including the two bonus ballots of fifty thousand each, given on the first and second subscriptions you turn in. To reserve most of the ballots secured on subscriptions is the best plan as no one will ever know how many votes you are holding back to cast at the end of the contest.

THE PRIZES

A Mammoth Array of Awards Worth a Small Fortune

GRAND PRIZES

Latest Model Chevrolet Sedan

\$100 Cash

DISTRICT PRIZES

Three Wardrobe Trunks

Three Dainty Gold Wrist Watches

Three Chests of Silverware

CASH PRIZES

Cash awards in the form of commission for ALL who do not win one of the eleven prizes.

Any person of good character residing in territory reached by The Hartford Herald may compete, with every chance of success, for any prize offered.

How to Enter

Use the nomination blank which appears in a double page advertisement in this paper. That makes you a candidate for the prizes and credits you with five thousand votes. (If more convenient, just phone in the name, or write, and we will fill out a nomination blank for you.) You may nominate yourself or any other person. Several if you wish.

After being nominated, then start voting for yourself and prevail upon friends to vote for you and to assist you to win.

There are but two ways to vote. Clip the Vote Coupons, fill in the name and send them in to be counted before the expiration date printed on the bottom. Secure coupons any way you wish. Gather them. Ask your friends to send them in. We credit you with each coupon received bearing your name.

Vote ballots are given on all subscription payments. This includes renewals and new subscriptions. (Collection of back accounts are considered as renewals.)

Price of Subscription and Number of Votes Which Are Given

1 year, \$1.50 earns 5,000 votes.
2 years, \$3.00 earns 15,000 votes.
3 years, \$4.50 earns 25,000 votes.
4 years, \$6.00 earns 35,000 votes.
5 years, \$7.50 earns 50,000 votes.
10 years, \$15.00 earns 125,000 votes.

Subscriptions will never earn a larger number of votes than they will if turned in today.

Contestants may take subscriptions anywhere in the United States at the price above. Contestants may have their friends assist and solicit subscriptions for them.

NO LOSERS

In this contest there can be no losers. There are eleven prizes and if there are more than eleven active contestants at the finish all others will receive a cash commission. Every one wins something.

Standing of Contestants in the Auto Contest.

In this list each contestant has been credited with only the 5,000 votes due from the Nomination Blank. Next week the votes will be counted and published.

Limit on the Voting—For the next issue any candidate may publish enough subscription votes to bring the standing up to 10,000, and then

add as many of the 100-vote coupons as has been gathered. All subscription votes secured in excess of the limited number that may be published, will be held in reserve by contestants to vote later in the contest. This limit will be removed later in the race.

WOOL DUTIES IN TARIFF

MAY SPLIT S. O. P.

Action Today Will Determine

Whether Fight Will Cause Repetition of 1909.

Washington, July 23.—Insurgent Republicans, busy today at the Capitol in an effort to muster enough strength to overturn the wool duties of the tariff bill, made it known that they still lacked enough votes to call it a rebellion, but they were hopeful.

Their efforts, under the leadership of Senator Lenroot of Wisconsin, it was said, had obtained the support of no less a personage than Senator Lodge of Massachusetts, the Republican leader. However, they had almost exhausted the possibilities at hand, most of the other standpaters standing pat on the high rates.

Tomorrow morning will disclose whether the present revolt equals the proportions of that led by Johnathan P. Dolliver in 1909, when the fight upon Schedule K of the Payne-Aldrich bill—the wool schedule—although unsuccessful, is credited with having laid the foundations of the Progressive party.

Eight Lead Fight

Besides the insurgent Senators who have been opposing high rates in the present bill all along, those now said to be aligned against it include Mr. Lenroot, Mr. Lodge, Senators Calder and Wadsworth, of New York and Senator Hale, of Maine. Eight Republican votes were set down definitely by the canvassers today as being against the high duties.

In 1909, when, under dramatic circumstances, Senator Dolliver led his famous drive against the Payne-Aldrich measure, such present-day reactionaries as Senators Kaute Nelson of Minnesota and Albert J. Cummins of Iowa, responded to his call.

Progressives like Senator La Follette and Albert J. Beveridge, the latter now coming back from Indiana, also were numbered among the famous ten who couldn't stand for the Payne-Aldrich measure, carrying the highest duties in history up to that time.

Proposed Rates Outstrip Others
The rates now proposed are higher than ever before. The basic rates is 33 cents a pound on what is called cleaned scoured wool.

But Mr. Lenroot figures that the raw wool rate makes the duties range from 26 to 137 per cent on wool and the manufactures of wool. He proposes amendments cutting this down to a maximum of 60 per cent. How such duties would affect the purse of the individual consumer is obvious.

EX-SERVICE MEN, ATTENTION

AUGUST 9, 1922, IS THE LAST DAY THE U. S. VETERAN'S BUREAU WILL RECEIVE APPLICATIONS FOR COMPENSATION AND VOCATIONAL TRAINING. THE STATE VETERAN'S BUREAU HAS ANNOUNCED THAT 40 PER CENT OF THE VETERANS IN KENTUCKY ENTITLED TO COMPENSATION HAVE NOT APPLIED. IF YOU HAVE A DISABILITY CAUSED BY ARMY SERVICE YOU SHOULD AT ONCE CALL AND SEE THE LOCAL RED CROSS CIVILIAN RELIEF SECRETARY, MR. GOEBEL C. CROWE, MAIN STREET, HARTFORD, KY., AND FILE YOUR CLAIM. HIS SERVICES ARE FREE.

DON'T NEGLECT THIS MATTER LONGER. FOR YOUR CLAIM WILL BE FOREVER BARRED, IF NOT FILED ON OR BEFORE AUGUST 9. THIS IS POSITIVELY THE LAST CALL.

MCDOWELL A. FOGLE, Civilian Relief Chairman Ohio County Chapter, A. R. C.

Mr. C. B. Howard, with Bond Bros., Gates, Tenn., who attended the marriage of his son, Otis, to Miss Martha Clarice Bellew, at Fulton, came to Hartford and spent from Monday afternoon until Wednesday, with his wife and daughter, Miss Geneva.

OHIO COUNTY DIRECTORY
OFFICIAL

CIRCUIT COURT
Convenes first Monday in March, May and July; third Monday in September and fourth Monday in November.

Each term continues 12 juridical days.
Judge—George S. Wilson, Owensboro.
Com'th. Attorney—Glover H. Cary, Calhoun.
Clerk—Frank Black.

Master Commissioner—B. H. Ellis.
Trustee Jury Fund—L. E. Tichenor.

COUNTY COURT
Convenes first Monday in each month.

Judge—R. R. Wedding.
County Att'y.—Otto C. Martin.
Clerk—Guy Ranney.
Sheriff—G. A. Ralph; Deputies: Mack Cook, Iris Render, George P. Jones.

Jailer—Nathaniel Hudson.
QUARTERLY COURT
Judge—R. R. Wedding.
Convenes first Monday in each month.

FISCAL COURT
Convenes Tuesday after first Monday in January; first Tuesday in April and October, the County Judge presiding.

1st. District—J. P. McCoy, Hartford.

2nd. District—W. C. Knott, Centertown.

3rd. District—Q. P. Brown, Simons.

4th. District—J. R. Murphy, Fordsville.

5th. District—Sam H. Holbrook, Hartford, R. F. D. No. 4.

6th. District—Mack Martin, Narrows, R. F. D. No. 2.

7th. District—J. Walter Taylor, Beaver Dam, R. F. D. No. 3.

BOARD OF EDUCATION
Superintendent—Mrs. I. S. Mason
Convenes first Monday in every month.—Mrs. I. S. Mason, S. S. O. C., and ex-official Secretary-Treasurer, R. A. Owen, Chairman, Hartford, R. F. D. No. 6.

W. R. Carson, Vice Chairman, Hartford, R. F. D. No. 3.
Nat Lindley, Centertown, R. F. D. No. 1.

Otis Stevens, Beaver Dam.
Claud Renfrow, Dundee.

Examinations
For Common School Diplomas—Fourth Friday and Saturday in January, and Second Friday and Saturday in May. Held in Fordsville, Beaver Dam and Hartford.

For Teachers' Certificate—Third Friday and Saturday in May, June and September. Except notice is given to the contrary the latter examinations are held in Hartford.

BOARD OF DRAINAGE COMMISSIONERS
S. T. Barnett, Hartford, President; V. C. Koecker, Beaver Dam, R. F. D. No. 2, and J. A. Bellamy, Whitesville, R. F. D. No. 2.

OTHER OFFICERS
Tax Commissioner—R. F. Keown, Fordsville.

Treasurer—C. O. Hunter.

Surveyor—C. S. Mosley, Fordsville.

Representative—Ira Jones, Whitesville.

MRS. NANCY ASHFORD'S BIRTHDAY CELEBRATED AT HORTON

Early Friday morning, July 14th, Mrs. Nancy Ashford's children, grandchildren, neighbors and friends began to gather at her home in Horton with well-filled baskets for the purpose of giving her a surprise dinner in honor of her 71st birthday. At about 11:30 a long table reaching across the dining room was spread and it fairly groaned under the weight of the good things to eat. Mrs. Ashford received many nice and useful presents. The nicest present was \$60 sent her by her son, A. C. Ashford, who is in the U. S. Army and is now stationed at Camp Devens, Massachusetts.

The following were present to enjoy the happy event: Mrs. Thelma Ashford; Mr. and Mrs. Lacy Dabney and children, Jesse, Alta Mae and Paul; Mrs. John Dabney; Mr. and Mrs. Wavie Dabney and baby, Freda, of Bevier; Mr. and Mrs. Spurrier Ford and daughters, Anna Belle, Pina and Oma; Mr. and Mrs. Emmett Quissenberry and baby, Leonard; Mr. and Mrs. Wm. Murphy; Mrs. Tullar Schroeder; Mrs. Martha Brown; Mr. and Mrs. Otha Daniel and two children, Donald and Kermitt; Mr. and Mrs. Robert Penley, of Drakesboro; Mrs. Corinne Day and little son, Carson Godsey, of Sulphur Springs; Mr. Miah Minton; Mrs. Fred Mitchell and children, Pearl and Earl; Mr. and Mrs. Kit Austin and son, Earl; Miss Helen Smith and brother, Halie, of near Bowling Green; Mr. and Mrs. Cleo Bryant and Miss Barbara Allen, of Olaton; Mrs. C. E. Crowder; Mrs. Jennie Boswell and little daughter, Catherine Lee; Mrs. Rena Kennedy and 3 children, Eunice, Beatrice and Vernon; Mr. and Mrs. Richard Miller; Mr. and Mrs. Gilbert Wright and niece, Leva; Mr. and Mrs. Albert Wright; Mr. Dick Ashford, Mr. Wm. Ashford; Miss May Ashford; Mr. and Mrs. Labe Wright and son, Luther; Mr. John Ford; Mrs. Minnie Wilson; Charles and Archie Wilson; Misses Lena Mae and Hattie Farmer; Misses Bessie, Mary Emma and Sylvia Felix, Anna Mae and Gladys Young.

All departed for their homes late in the afternoon feeling a most enjoyable day had been spent and wishing Mrs. Ashford many more happy birthdays.

ONE PRESENT.

FOURTEEN-YEAR OLD BOY IS KILLED BY PLAYMATE

Ashland, Ky., July 19.—Charles Ackle, 17 years old, was accidentally shot and instantly killed by his playmate, Walter Tussey, 14 years old, on the river bank late this afternoon. The boys were hunting birds. Tussey, after shooting at a bird, reloaded the gun and flung it over his shoulder. In some manner it was discharged, the bullet entering Ackle's body, killing him instantly. He was the step-son of Will Dunlap, of this city.

PARCEL POST BRANCH WILL COST \$250,000

Louisville, Ky., July 19.—Work on the parcel post branch of the local postoffice will commence tomorrow with the razing of an old brick warehouse located on the northeast corner of Tenth and Main streets, it was announced by H. J. Schierich, president of the Consolidated Realty company, to which firm contract was recently awarded by the government.

COP WHIPS 2 WHILE IN CLUTCHES OF WOMAN

New York, July 18.—Patrolman Joseph Maher was the one victim of strike sympathizers here today. According to his story he was on duty at the New York Central shop at 130th Street and Tenth Avenue, when Neal Sullivan, Benjamin Muldoon and Margaret Muldoon, sister of Benjamin, set upon him, the woman holding him while the men used their fists. At the West Thirtieth Street Station the two men were treated for scalp wounds and Maher went back to his post.

WANTED—Men or Women to take orders among friends and neighbors for the genuine "guaranteed hosiery, full line for men women and children. Eliminates darning. We pay 75c an hour spare time, or \$36.00 a week for full time. Experience unnecessary. Write International Stocking Mills, Norristown, Pa. 19-10t.

Cures Malaria, Chills, Fever, Bilious Fever, Colds and LaGrippe.

RADIO

THIRD ELEMENT IN THE VACUUM TUBE

Grid Added to Fleming Valve by Dr. Lee DeForest Was a Big Improvement.

Any device which will pass electricity in one direction and will wholly or partially obstruct the flow in the opposite direction is termed a rectifier, because when connected in the path of an alternating current it will suppress one-half of each cycle and therefore the circuit will be traversed by pulsating direct current. A rectifier also is said to possess unidirectional conductivity, meaning, of course, that it will conduct electricity in one di-

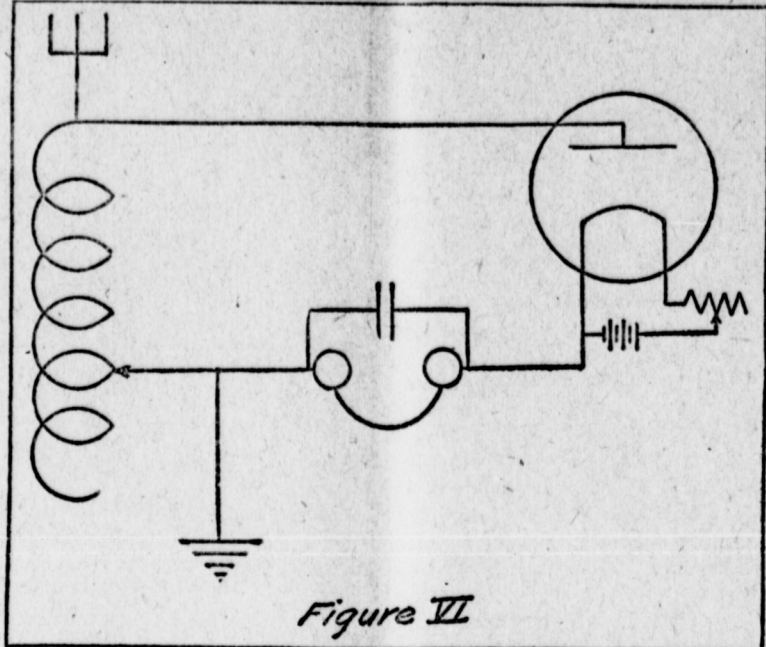

Figure VI is a simple radio receiving circuit employing this type of two-element vacuum tube in place of a crystal detector.

rection only. Its ability to rectify currents of extremely high frequency determines its application in radio.

Due to its ability to rectify high frequency alternating currents the two-element (filament and plate) vacuum tube can be used in a radio receiver as a detector.

Fig. VI is a simple radio receiving circuit employing this type of two-element vacuum tube in place of a crystal detector.

Dr. J. A. Fleming of London, England, was the first to use a two-element tube of the type just described as a medium of rectifying high frequency radio currents. Fleming called his product a valve because it would let current flow in one direction but not in the other direction. The Fleming valve as a forerunner of the vacu-

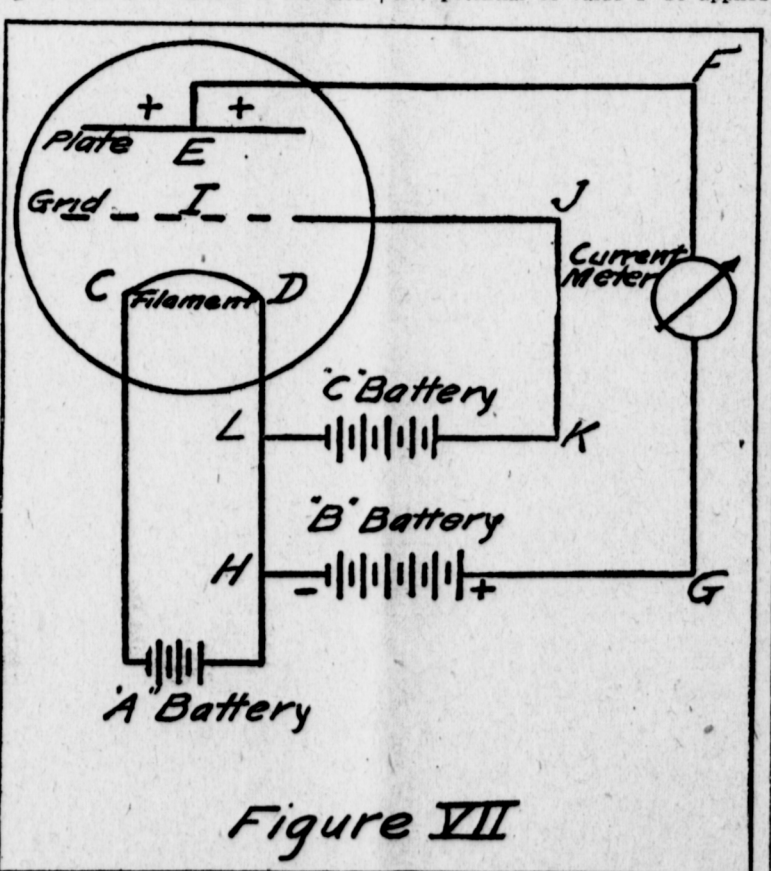

Figure VII is a diagrammatic sketch of the circuits of a three-electrode vacuum tube and is identical to the same as the sketch in Fig. III for a two-element vacuum tube with the addition of the grid circuit I-J-K-L. The battery in the grid circuit is called the "C" battery.

As a start let us suppose that "C" battery voltage is zero. The operation of the three-electrode tube would then be exactly like that of a two-electrode tube. Just as though there were no grid. Like a two-electrode tube when the filament C-D is brought to incandescence by the "A" battery a steady stream of electrons will be given off, which will be drawn over to the plate E. Plate E is maintained at a positive potential with respect to the filament by the "B" battery.

Now if the grid is made positive with respect to the filament, it is possible to accelerate the flow of the electron stream from the filament to the plate; if the grid is made negative with respect to the filament, the flow of the electron stream from the filament to the plate will be retarded. Or in other words, by making the grid positive or negative with respect to the filament, it is possible to increase or counteract the space charge. The third electrode or grid thus offers a means of controlling the current in the

plate circuit without changing the plate potential or the filament temperature.

The characteristic curve of a three electrode vacuum tube is shown in Fig. VIII. This diagram shows the relation of grid potential to plate current, assuming that the filament temperature and plate voltage remain constant.

It can be seen from the curve that by applying a negative potential of value E to the grid, the plate current can be reduced to zero. The negative charge on the grid will have the effect of a negative potential E with respect to the filament, making the negative charge so strong around the filament that the electrons cannot leave it. On the other hand, if a positive potential of value F be applied

dition of the grid circuit I-J-K-L. The battery in the grid circuit is called the "C" battery.

As a start let us suppose that "C" battery voltage is zero. The operation of the three-electrode tube would then be exactly like that of a two-electrode tube. Just as though there were no grid. Like a two-electrode tube when the filament C-D is brought to incandescence by the "A" battery a steady stream of electrons will be given off, which will be drawn over to the plate E. Plate E is maintained at a positive potential with respect to the filament by the "B" battery.

Now if the grid is made positive with respect to the filament, it is possible to accelerate the flow of the electron stream from the filament to the plate; if the grid is made negative with respect to the filament, the flow of the electron stream from the filament to the plate will be retarded. Or in other words, by making the grid positive or negative with respect to the filament, it is possible to increase or counteract the space charge. The third electrode or grid thus offers a means of controlling the current in the

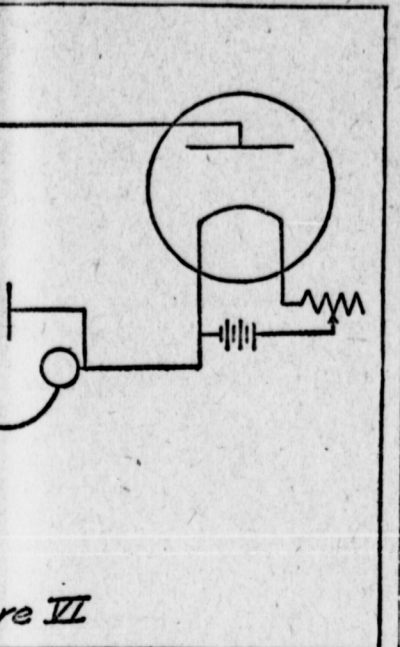

Figure VIII shows the relation of grid potential to plate current, assuming that the filament temperature and plate voltage remain constant.

It can be seen from the curve that by applying a negative potential of value E to the grid, the plate current can be reduced to zero. The negative charge on the grid will have the effect of a negative potential E with respect to the filament, making the negative charge so strong around the filament that the electrons cannot leave it. On the other hand, if a positive potential of value F be applied

plate circuit without changing the plate potential or the filament temperature.

FARM EXTRACTS

INFORMATION FROM THE EXPERIMENT STATION—AGRICULTURAL PAPERS AND THE COUNTY AGENT'S OFFICE

Tobacco Field Meeting Planned For August 10

Plans for the tobacco field meeting to be held here on the Kentucky Agricultural Experiment Station farm August 10 are well under way, according to an announcement by those in charge of the event. The program of the meeting will be designed to acquaint tobacco growers with the work of the station along tobacco lines and to present several subjects of special interest to growers of the leaf crop.

Chief interest in the meeting is expected to center around the experiments being conducted by the station to compare root rot resistant strains of standup Burley with varieties commonly grown in the Burley section of the State. Results of the experiments indicate that the development of resistant strains of tobacco is a means of controlling root rot which is recognized as one of the most serious tobacco diseases and one that annually causes heavy losses to Burley growers.

James C. Stone, president of the Burley Tobacco Growers' Co-operative Association, will be one of the principal speakers at the meeting. A demonstration will be given by Ralph M. Barker, director of warehouses for the association, to show how farmers can realize a greater profit on their tobacco by careful grading. Other talks will be given by Director Thomas P. Cooper, of the station; E. J. Kinney, a tobacco specialist of the station and W. D. Valleeau, the station plant pathologist.

New Poultry Booklet Is Ready For Farmers

"Helpful Hints for Poultrymen," is the title of the latest publication from the College of Agriculture. The new booklet answers the question, "Which is the best breed of poultry?" and then gives detailed discussions of such things as selecting layers, breeding for eggs, culling, management hints, feeding laying hens, chick feeding, artificial brooding, fattening, housing and poultry pests and diseases. The publication, which also contains a list of reference bulletins and circulars may be obtained free by writing the Experiment Station at Lexington.

Kentucky Farmers Plan To Use More Fertilizer

Reports being received at the College of Agriculture from county agricultural agents in various parts of the State indicate that Kentucky farmers this year will use fertilizers, particularly limestone and acid phosphate, more extensively than they have in the past few years. This is seen by soil specialists at the college as a marked step toward soil improvement in view of the fact that limestone and acid phosphate, when used on the State's soil experiment fields, repeatedly have demonstrated their ability to increase crop yields on practically all types of soil found in Kentucky.

Grayson county farmers have made arrangements to use at least 1,600 tons of limestone this fall, more than 90 per cent of which will be used in connection with acid phosphate, County Agent R. W. Seearce says. Applications will be made at the rate of two tons of limestone and 200 pounds of phosphate an acre. It is expected that at least 500 acres will be limed in the county.

In Henderson county, farmers have made arrangements to pool their orders for stone in order to cording its use in the county, according to County Agent D. W. Martin, while 400 tons of stone already have been crushed in Lincoln county and plans made for the crusher to work in four other communities during the summer and fall, C. B. Elston, county agent, says.

Contracts have been made for the crushing of 700 tons of limestone in Larue county, according to County Agent J. W. Jones, who adds that interest in the use of limestone and its value in increasing crop yields is growing in that county. Farmers in one community of Oldham county have made arrangements for a carload of stone which will be used on wheat and clover demonstration to be conducted on 15 different farms, County Agent Gordon B. Nance says.

A number of Union county farmers are obtaining good results by using limestone, County Agent L. C. Brewer says. One of them, S. W. Blue, who lives near Morganfield, is planning to use two carloads each year on his farm for the next five years.

"Highroads and skyroads" is the title of a one-reel motion picture just released by the United States Department of Agriculture. It was made in the western tier of States under the supervision of highway engineers of the Bureau of Public Roads.

Owing to the importance of the feed-farming industry, the United States Department of Agriculture has established a project which deals with it exclusively. It furnishes information to prospective breeders, as well as to those already engaged in the industry, which helps them to overcome obstacles and avoid pitfalls.

Farm and Home News From Over Kentucky

Two hundred farm boys and girls from Christian and Todd counties recently attended the junior agricultural club camp held for them at Selubria Springs by the College of Agriculture extension division, County Agent I. C. Graddy says.

Indications are that Crittenden county farmers will use increased amounts of limestone this fall in improving their soils, County Agent John R. Spencer says. Two carloads recently were ordered in one week by different farmers.

Definite plans in connection with the "Better County Achievement Campaign," which Jackson county has entered, recently were put under way when more than 3,000 interested persons gathered at McKee in a community get-together meeting, County Agent W. R. Reynolds says. Ministers, lawyers, farmers, junior agricultural club members and other persons of varying interests met in separate sessions to perfect plans whereby they might help carry the campaign forward in the county.

Henderson county farmers and fruit growers are planning to make an elaborate fruit display at the coming Kentucky State Fair, according to County Agent D. W. Martin, who has been appointed to take charge of the exhibit. Many individual fruit growers and farmers are expected to enter fruit in the exhibit, he said.

J. W. Lille, a farmer living in the Clarkson community of Grayson county, is succeeding in demonstrating the value of limestone and acid phosphate in increasing wheat yields to farmers in that section, County Agent R. W. Seearce says. Last year he obtained good results by using these two materials on his wheat and this year is planning to use more limestone.

Hog Raisers Should Plow Up Barn Lots Each Year

Hog raisers may accomplish two desirable results by plowing up the barn lots at least once a year, says the United States Department of Agriculture. In the first place, hogs need good succulent pasture as much of the time as possible, and in the second place they need protection against internal parasites, such as roundworms, the eggs of which remain in the soil. Turning over the soil in the lots helps to get rid of the pests and the crop of forage makes it a profitable operation. In addition to providing cheap protein feed, pasture crops aid as a laxative and require the hogs to take a certain amount of exercise which is necessary to breeding animals and growing pigs.

Rye is probably the best crop to use for fall, winter, and spring pasture for hogs. Throughout the corn belt it may be sown from August 20 to about October 1, depending on the latitude. In warmer climates the crop may be put in at various times up to as late as December. By putting in successive plantings from 2 to 4 weeks apart it is possible to have fresh pasture all the time. Seeding for pasture should be much heavier than for a grain crop, from 3 to 4 bushels per acre on a good soil. Pasturing can probably begin 6 weeks after seeding, and may continue, if the rye is not covered with snow, until the following April.

The best cream to whip is good, rich cream, from 24 to 48 hours old, says the United States Department of Agriculture. It should contain at least 30 per cent butter fat to produce ideal results, and be kept very cold. Pasteurization tends to lower the whipping quality of the cream, and homeogenization is very harmful to it. Combined they practically destroy the value of cream for whipping.

EMINENT EDITOR DIES IN GOTHAM

New York, July 18.—Charles Ransom Miller, editor-in-chief of the New York Times for more than thirty-nine years, died today in his home, 635 Park Avenue, after an illness of two months. He was 73 years of age.

Mr. Miller had suffered from chronic illness for many years, but two months ago he was forced to remain in bed. A few days ago his condition became grave. With him when he died were his daughter, Miss Madge Miller, and a son, Hoyt Miller.

He was born January 17, 1849, in Hanover, N. H., the son of Elijah T. and Chastina Hoyt Miller. He received his preliminary education in the local schools of his native town and then went to Dartmouth College, where he was graduated with the class of '72.

He started his journalistic career with the Springfield Republican, where he learned the secrets of the profession from Samuel Bowles. In three years Mr. Miller had risen to city editor, an honor of nomenclature rather than office in those days.

On July 7, 1875, Mr. Miller came to New York and joined the staff of The Times, where he became assistant to the telegraph editor. Later he was given charge of the weekly edition of the paper, and after its suspension he became foreign Exchange Editor.

In those days The Times was Republican. Mr. Miller had Democratic tendencies. But Republicans in New York were becoming disgruntled. He began to contribute to the editorial page.

His writings were of such a character that in 1881 he was made a regular editorial writer. Two years later, in April, 1883, upon the resignation of John Ford, Mr. Miller, who was then only 34 years of age, was made Editor-in-Chief.

Upon the death of George Jones, owner of The Times, the heirs were unable to carry the paper successfully. Mr. Miller was one of a group of Times editors who with friends formed a syndicate which took over the property. April 13, 1893, Mr. Miller was the principal stockholder and president. That New York Times publishing company became involved in the panic of 1893. For a time it weathered the storm, but in 1896 the present Times company was formed with Adolph S. Ochs as controlling owner and publisher.

Honored By Colleges

Mr. Miller was continued as editor and his policies governed the paper. He was the second largest shareholder in the new company and served as first vice president and a member of the Board of Directors until his death. He maintained full control over all the writings for the editorial page and did much of the writing himself.

He was an assiduous advocate of the editorial freedom of the press. He was married October 10, 1876, to Miss Frances Daniels, of Plainfield, N. H., who died in 1906.

That same year Dartmouth conferred upon him the honorary degree of Doctor of Laws. In 1915 Columbia gave him his Doctor of Literature.

He was a member of the Metropolitan, Century and Piping Rock Clubs and the Theta Delta Chi Fraternity. He was a Chevalier of the French Legion of Honor and of the Belgian Order of Leopold. He was also a Knight Commander of the Greek Order of George I.

BOLT TEARS SHOES

OFF WOMAN'S FEET

Middletown, N. Y., July 22.—During a severe storm here today Mrs. Stewart Dolloway was sitting on the edge of an iron bed when a lightning bolt struck the chimney of her home, tore off her shoes and stockings and set fire to the bed. She was severely burned, but will recover.

MYSTERIOUS PAINS AND ACHES

Make Life Hard to Bear For Many Hartford Women

Too many women mistake their pains and aches for troubles peculiar to the sex. More often disordered kidneys are causing the aching back, dizzy spells, headaches and irregular urination. Kidney weakness becomes dangerous if neglected. Use a time-tested kidney remedy—Doan's Kidney Pills. Hosts of people testify to their merit. Ask your neighbors? Read a Hartford case:

Mrs. Rosa B. Bear, Bonner St. says: "I suffered with pains in my hips and back. The doctor said it was rheumatism and I took medicine without benefit. Someone advised me to take Doan's Kidney Pills and I used two boxes and was cured. Later I had another attack when my kidneys became weak and irregular. I was lame in the muscles of my arms and across my hips and suffered great pain, every move I made. When I stooped over, I could hardly straighten up. Doan's Kidney Pills, which I got at the Ohio County Drug Co., cured me of both attacks and I certainly have a good word for them."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Bear had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. —(Advertisement.)

A. P. TAYLOR ELECTED PRESIDENT UNIVERSITY OF KENTUCKY TEACHER'S FORUM

Lexington, Ky., July 12.—The teachers in attendance at the Summer Session at the University of Kentucky have organized themselves into a forum for the discussion of teaching problems, the first organization of its kind in the history of the Summer Session of the institution. The 600 teachers in attendance at the Summer Session have decided to provide for an organization corresponding to the Teachers' Club in many university summer schools. They have met and elected officers and appointed committees.

The officers of the Forum are A. P. Taylor, of Owensboro, president, and Miss Maria Brock, of Winchester, secretary.

MAXWELL

Rev. E. S. Moore filed his appointment at New Bethel Saturday night and Sunday.

The tobacco and corn crop of this vicinity is looking fine.

The fourth quarterly conference for the Livermore charge will be held at New Bethel second Saturday and Sunday in August.

Misses Hallie and Mary Yeiser, of Owensboro, are spending the week with their parents, Mr. and Mrs. Morgan Yeiser.

Mr. Carter Jolly, who has been ill of typhoid for the past three weeks, is convalescent.

Miss Ella Crowe is visiting relatives in Owensboro this week.

Rev. Brown, of Equality, is holding a series of meetings at this place.

CAPT. DEWEES GRADUATES

Capt. James M. Dewese of the U. S. Army, Field Artillery service, recently graduated from the Fort Sill, Okla., Artillery school and has been attached to the 4th Field Artillery, U. S. A., located at Fort Sam Houston, Texas.

Capt. Dewese has long held high rating in army circles, and his recent special study and training is expected by his friends to lead to his further promotion at an early date. Capt. Dewese has many friends in this, his native County, who wish him well in his chosen field.

I hold a certificate from the State Board of Health to test eyes and fit glasses and will guarantee my work to please you.

J. B. TAPPAN, Optometrist, Hartford, Ky.

ATTENTION, FARMERS!

A fairly good yield no longer satisfies the progressive farmer. It must be the best possible that a soil can produce under the most improved methods of cultivation. No improvement which a farmer can put upon his farm is so permanent and yields the returns as

DRAIN TILE.

WEDNESDAY, JULY 26, 1922

CO-OPERATION AT HAND

It will be good news to the tobacco
growers of Ohio County and their

real friends to learn that the first
steps looking toward the organiza-
tion of the Dark Tobacco Co-Operative
Association in this section, have
been taken. The work has been ac-
tively and successfully pushed in
numerous other counties of Western
Kentucky and Tennessee. The re-
sponse to the effort at pooling which
has been made in Davless and Mc-
Lean counties, has been so flattering
that there can be no reasonable
grounds for expecting anything but
the most enthusiastic reception in
Ohio County. In fact reports we
have received from all parts of the
county indicate an overwhelming
approval of the co-operative market-
ing plan. An informal meeting was
held yesterday of interested farmers
to initiate the practical working of
the county organization. A mass
meeting of growers will be held
shortly, officers elected and workers
put in the field. The Dark Tobacco
Pool deserves to and, we prophesy,
will be as great a success and as
inestimable a boon to its members
as has been the Burley Association.

The Hartford Herald, \$1.50 the year

Why We Handle and Recommend Crown Gasoline

And Other Standard Oil Products

In the first place, there's none better made by
anybody, anywhere.

If there were better, we know that the Standard
would have it.

With the universally acknowledged responsibility,
the unsurpassed equipment and cooperation of so
great a public service institution as the Standard
Oil Company (Ky.) to back us up in any state-
ment we make, and in the service we give, we
know that we can, and will, give you the most for
your money in every purchase of gasoline, motor
oil or any other Standard Oil product.

We don't try to "spoof" you into trading with
us by mere assertions and technical terms. We
"deliver the goods"—because we've got the goods
to deliver.

Crown Gasoline is made right here in Kentucky by the Standard
Oil Company, incorporated in Kentucky, from whose great mod-
ern refinery at Louisville, Ky., we get direct the pure, fresh, un-
adulterated product that's acknowledged the best by every test
for your motor and pocketbook. Deal with us and play safe.

Manager. After being signed by Contest Manager
they may be reserved to be voted later in the contest.

Name of Candidate

Address

Contest Manager.

No Candidate will be credited with more than two of these ballots.

BELLEW-HOWARD

Marked by simplicity and beauty
was the wedding of Miss Martha
Clarice Bellew and Mr. Otis Howard,
which took place at the home of the
bride Monday morning, July 17th.
The impressive double ring cere-
mony was used and was performed
by the Rev. Young, pastor of the
First Christian Church.

The rooms were attractively dec-
orated with a motif of pink and green,
vases of pink blossoms being used,
interspersed with ferns. An im-
provised altar formed of ferns and
vases of gladioli, marked the place
of ceremony.

Nuptial music was rendered by
Miss Georgia Terry and Miss Helen
Browder, who sang "Because."

The bride and bridegroom en-
tered to the strains of Mendelssohn's
wedding march.

The bride was attired in a three-
piece traveling suit of blue pique
twill and periwinkle canton crepe
with accessories in harmony. Her
corsage was of sunburst roses and
valley lilies.

The bride is the daughter of Mr.
and Mrs. R. M. Bellew. She was
graduated from the University of
Kentucky in June.

The bridegroom is the son of Mr.
and Mrs. C. B. Howard, of Hart-
ford, Ky. He also is a graduate of
the University of Kentucky and
since his graduation has been em-
ployed by the Baley Meter Company,
of Cleveland, Ohio.

Immediately after the ceremony
the wedding cake was cut and deli-
cious punch was served by Misses
Allie Nelson and Fannie Lee Nix.—
The Fulton Daily Leader, Fulton,
Ky.

Mr. Howard is one of the most
likable and promising of the young
men who have gone out from Hart-
ford in recent years. We join their
many other friends in wishing for
him and his accomplished wife the
utmost happiness and success.

SURPRISE BIRTHDAY DINNER

Friends and relatives gathered at
the home of Mrs. Mary J. Ferguson
Sunday July 16, it being her 69th
birthday, bringing baskets loaded
with everything good to eat. Those
present were Mr. and Mrs. O. E.
Scott and family, Mr. C. C. Dennis
Mr. and Mrs. M. M. Tate and son,
Mr. and Mrs. Lennie Sanderfur and
family, Mr. and Mrs. Ben Woodburn,
Mr. and Mrs. Jesse Brown, Mr. and
Mrs. Cephas Raymer and family,

Mr. and Mrs. Jasper Hocker and
daughters, Mr. and Mrs. Ad Frizzell
and family, Mr. and Mrs. T. C. Den-
nis and family, Mrs. Lizzie Brown
and family, Mrs. Edward Shultz and
daughters, Misses Ocie Bell Herrel,
Pansy and Imogene Wilson; Messrs.
Freewin Chinn, Hallie Herald, Uhl
Wilson, John Jones, Enley Taylor,
Howard Whitescarver and Mrs.
Mary J. Ferguson. In the afternoon
we had singing and prayer.

ONE PRESENT.

YOU NEVER CAN TELL

cannot prevent them but we can
write you a policy that will protect
you.

W. H. & M. T. PARKS.

Hartford Herald, \$1.50 the year

JULY MILL-END SALE

Our Mill-End Sale is attracting large crowds of eager buyers who are taking advantage of our unusually low prices. Most every day adds new, fresh, clean merchandise to our list of Special Values. Remember, a general reduction in all our departments prevails, while thousands of yards of Mill-Ends in Gingham, Percales, Sheeting, Bleach and Brown Domestic, Crash, Organdies, Voiles, Pongee, etc., were bought for this special sale.

Remember, school begins this month; these short lengths make ideal dresses and waists for the girls and boys.

It will be wisdom on your part to see this wonderful assortment of special values, and then, better still, for you to lay in a liberal supply. Sale continues throughout the month. Don't let this opportunity slip.

FAIR & CO.
THE FAIR DEALERS

Mrs. John C. Riley has returned from a short visit with relatives in Owensboro.

Little Miss Edna Reed Bell, of Buford, is the guest of her aunt, Mrs. J. P. Casebier, of this city.

Judge W. H. Barnes and son, Mr. J. Glenn, will return today from a motor trip to Washington, D. C.

County Clerk Guy Ranney was the guest of his father, Mr. C. W. Ranney, of Seiect, last Thursday.

Dr. A. B. Riley announces he is prepared to test eyes and fit glasses in his office over Ohio Co. Drug Co.

Mrs. John H. Thomas and Little granddaughter, of Louisville, are making an extended visit with Mrs. Thomas' daughter, Mrs. C. C. Park and Mr. Park and other relatives of the Narrows country.

Miss Julia Helen Keown, daughter of Mr. and Mrs. Clarence Keown, of Evansville, who had been visiting relatives in Whitesville, was the guest of her grandfather, Mr. Cal P. Keown, of this city, Wednesday.

Miss Bonner Barrett, of this city, attended a meeting of Dundee Chapter, Order of the Eastern Star, Saturday afternoon. She was the guest of Mrs. E. F. Duke, Saturday night, returning home, Sunday.

Mrs. Ollie Schrickle and Little daughter, Margaret, and Miss Gussye Bennett, of Decatur, Ala., have arrived in the city to spend two weeks with their parents, Mr. and Mrs. S. E. Bennett, and other relatives.

Mr. and Mrs. L. H. Tappan and family, who had been visiting in Evansville, Ind., spent Tuesday night of last week in Hartford, as the guests of Dr. and Mrs. J. B. Tappan, while en route to their home in Hopkinsville.

Mr. and Mrs. Charles R. Bell, of Bowling Green, are making an extended visit with Mr. Bell's parents, Mr. and Mrs. Samuel Bell, of Buford. Young Mr. Bell is one of the most promising attorneys of the Warren metropolis.

The Eastern Star Chapter at Dundee held an interesting meeting beginning at 2 p. m., Saturday. Three candidates were initiated. A considerable number of the members of the Fordsville Chapter were present to assist in the work.

Mrs. Nettie M. Reid and daughters, Mrs. Cozie M. Dupuy and Mrs. P. O. McKinney and son, Oliver James, have returned to Rockport, after spending about ten days with Mrs. Reid's sister, Mrs. R. H. Gillespie, and family.

Mr. and Mrs. Arch Foster and children, Gladys, Beulah Mae, Anna Mary, Charles and Edward, and Mrs. J. P. Foster, of Hedfin, were the guests of the former's sister and the latter's daughter, Mrs. O. D. Carson, and Prof. Carson, city, recently.

Miss Erma Carter, who has been the guest of her parents, Mr. and Mrs. A. A. Carter and other relatives in and near this city for the past several days, returned to her home in Chicago, Ill., Friday. She was accompanied by Misses Thelma Bennett and Kennedy Collins to Madisonville.

Self Sealing Mason Jars keep the fruit. No mold; no loss.
Pints (Hold more than ordinary pints) per doz. \$1.00
Quarts, per doz. \$1.15
Tops (with rubbers) per doz. ... 30c
Come in and let us show them to you. We'll save you money. They'll save your fruit.

WILLIAMS & TAYLOR.

Miss Cesna Shultz, city, who had been the guest of her sister, Mrs. Harry Bloudi, and Mrs. Bloudi, Washington, D. C., for the past several weeks has returned home. She, together with another sister, Miss Sallye, left Friday for Dupoy, Ky., where they will teach. Miss Cesna will be principal while Miss Sallye will be assistant.

Miss Olivia Harrison, formerly of Narrows, who for the past three years has been a civil service employee at Washington, D. C., has been promoted and transferred to Los Angeles, Cal. She left Washington for the western city last Wednesday and will visit Pike's Peak, Colorado Springs, Salt Lake City, and Royal Gorge enroute. She will assume her new duties at once upon her arrival.

Miss Mildred Stevenson, stenographer for Barnes & Smith, lawyers, city, left last week for her home in LaCenter to spend two weeks.

Little Miss Serelda Bishop, of Winchester, Ky., who is visiting relatives in Centertown, spent Tuesday in this city, the guest of relatives.

Mr. Orion Wallace, of Central City, was the guest of his mother, Mrs. S. T. Barnett, and Mr. Barnett a day or two the latter part of last week.

Mr. and Mrs. Henderson Murphree, of Owensboro, were the guests of Mrs. Murphree's parents, Mr. and Mrs. Rowan Holbrook over the week-end.

The earliest home-grown water-melons of the season, as far as we have heard, were raised by Mr. Pote Norman, of near Seiect. They were ripe on the 15th, inst.

Mr. and Mrs. Ernest Field, of Houston, Texas, are the guests of Mr. Field's aunt, Miss Mary Rowe, city. Ernest is another of our Hartford boys who has made good in the Southland.

Miss Mary Warren Collins, who has a stenographic position in Louisville, is spending her vacation with her parents, Mr. and Mrs. R. T. Collins, of this city. She will be here about two weeks.

The recently organized ball team of Bishnor came up to Hartford and tied up with the local lads at Riverside Park Saturday afternoon. The final count was 4 to 2 in favor of the Hartford boys.

Mrs. B. F. Zimmerman and Miss Ida Matlack have returned to their homes in Louisville after spending about a week as the guests of the former's mother, Mrs. Elizabeth Taylor and other relatives in this city.

The dance given at Dr. Bean's Opera House by Nib King's Kentuckians, of Henderson, on last Friday night was largely attended and highly enjoyed by the young people of the county.

Mr. O. C. Fogle, of Fairfield, Ill., was in the city Wednesday night and Thursday morning. He was a welcome visitor both at this office and at the home of ye editor, who has the honor of calling the Illinois gentleman, "Cousin."

Judge and Mrs. John B. Wilson and son, Master Levi, Misses Martha Carolyn Pate, city, and the latter's visitors, Misses Adelaide Longest and Margaret Beauchamp, of Hawesville, motored up to Sulphur Springs and spent the day Thursday.

Mr. and Mrs. John H. Barnes, of Beaver Dam, were the host and hostess at a most enjoyable family dining last Thursday. Their out-of-town guests were Mesdames Lida Miller, of near Beaver Dam, Elizabeth Taylor, W. M. Fair, of Hartford, and B. F. Zimmerman, of Louisville, and Miss Ida Matlack, of Louisville.

Rev. and Mrs. T. T. Frazier and son, Master Earl, will leave here today via motor car for Providence, Ky., where they will be the guests of Mrs. Frazier's parents, Mr. and Mrs. E. L. Wilson, for about a week. They will be accompanied home by their other children, Misses Lorene and Louise and Master Thomas, who have been visiting their grandparents for sometime.

Mr. Claud McKenney, who has been in the employ of the Madera-Marmora Railway Co., in Brazil and Bolivia for a number of years, is spending his vacation with his brother, Dr. J. O. McKenney, of Beaver Dam, and other Ohio County relatives. He and Mr. Marshall Barnes, of Beaver Dam, were welcome visitors at this office, Friday.

**BEN JOHNSON'S OP-
PONENT WITHDRAWS**
Republican Ticket to Be Without Congressional Candidate in Fourth District This Fall

Dr. R. H. McMullin, of this city, Republican candidate without opposition for Congress in the Fourth District, has announced his withdrawal from the race, leaving Representative Ben Johnson, Democrat, unopposed in both primary and general election.

Dr. McMullin's withdrawal is reported to be due to the desire of party leaders to center their fight on the appellate judgeship race this fall. This is the first time in many years the Republicans in this district have been without a candidate for Congress.—Leitchfield Gazette.

Cures Malaria, Chills, Fever, Biliousness, Colds and LaGrippe.

Ideal Theater

BEAVER DAM, KY

Thursday, July 27th,

Come prepared to see an unusual picture, containing love, sorrow, and thrills.

"In Old Kentucky"

A picture of the GREATEST STATE of this great union

Featuring

ANITA STEWART

SEE

The Fendist battles in Kentucky Hills between moonshiners and revenue officers.

The greatest horse-race screened—where Miss Stewart rides for one of the jockeys who had been drugged in order to frame the race.

The Wonderful Kentucky Scenery.

Where she rushes into a blazing barn and is all but smothered by smoke and flames to lead a thoroughbred from the burning stable.

Where she leaps on horseback over a chasm, narrowly escaping a fall.

A SHOW THAT WILL PLEASE ANY AND EVERYONE

Also a comedy.

Saturday, July 29th

That old favorite of yours

WILLIAM DUNCAN

The best liked star we have ever shown in that thrilling story of danger and daring in the great west.

"Where Men Are Men"

A great 5-reel Western—a tale of the death Valley Mining Country with the solidness left out. A thrilling hunt the most realistic fight in a photo-play is staged between WILLIAM DUNCAN and Sailor TOM WILSON former sparring partner of Bob Fitzsimmons.

We have had more requests for "BILL" Duncan than any other star.

Monday, July 31st.

THE ACE OF THE SADDLE,

HARRY CAREY

—IN—

"The Fox"

One of the greatest super-westerns ever screened. See a thousand horsemen ride like mad across the scorching sands of the great Mojave Desert. See the terrific blinding sand storm and the great battle against hundreds of outlaws. A thriller you will never forget.

To all of these big shows the biggest week of 'em all there will be no increase in price 20cts. to all.

Mark it (Aug. 5th.). More people will see this picture than any one we have ever shown.

The first correct answer handed in Saturday July 29th, containing the name of the author (who is the most popular in America to-day, two of whose pictures we have shown) and the name of the picture will receive ABSOLUTELY FREE \$2.50 in Gold—get it.

Be with the crowd.

Feeling blue? Your fault—note the remedy and place.

Two shows each night. Also comedy, 7:30 and 9:00.

MRS. ARGLE FARMER

Mrs. Archie (Taylor) Farmer, wife of Mr. Argle Farmer, died of heart trouble at her home near Sulphur Springs, last Saturday night a few hours after the birth of her child. Had she lived she would have been 22 years of age Sept. 17th. She was the only daughter of Mr. and Mrs. Thomas Taylor and she and her husband were residing with her parents at the time of her death. She professed religion a few years ago and before her death told her father that she had made her peace with God. She had resided in the northern section of the county the greater portion of her life and was one of the county's best and brightest young women. She was known and loved by a multitude of friends and her cheery smile will long be missed by those who had the pleasure of her acquaintance.

Besides her husband and parents, near relatives, surviving are one brother, Mr. Emmett Taylor, now a student in Western Kentucky State Normal School at Bowling Green, and her infant daughter, Alice Marjorie. Mrs. J. W. Kirk, of this city, is an aunt of the deceased.

Because of the terrific downpour of rain the funeral was postponed and will be conducted at 11 a. m., Sunday, September 3rd., at Cedar Grove M. E. Church by Rev. R. T. Harper. After a brief burial service the body was laid to rest in Midkiff graveyard Sunday afternoon. The Herald joins the many other friends of the bereaved in extending profoundest sympathy.

There could be no nobler sacrifice than that of death upon the altar of young motherhood.

DESIRABLE MACHINERY

Prices and terms of settlement always satisfactory. One No. 6 rebuilt Birdsall Clover Engine, one No. 1 rebuilt Birdsall Clover Engine. Both Machines newly painted. THIRD—Take subscriptions—RENEWALS AND NEW ONES. Just two ways to secure votes after being nominated.

Plan is Very Simple . . . Everyone Wins Something

Big prizes and Cash Awards in form of commissions for those who don't win. Open to all. Cost nothing to enter. Receipt Books, supplies, etc., all FREE. Friends and relatives can work for you. Men may carry on a campaign for any Lady or Girl or in their own name. Just two ways to get votes after being nominated—

Clip Coupons and Secure Subscriptions.

Manner of Awarding Prizes:

Grand Prizes

The candidate receiving the largest number of votes in the contest, regardless of place of residence, will be declared winner of the Chevrolet Sedan.

The candidate receiving the second highest number of votes in the contest, regardless of place of residence, will win the \$100 cash prize.

Those two candidates are eliminated from winning other prizes.

DISTRICT PRIZES

The three candidates standing first in their respective districts will each win a handsome wardrobe trunk.

The three candidates standing second in their respective districts will each win a dainty 15 Jewel Elgin wrist watch.

The three candidates standing third in their respective districts will each win a chest of 26 pieces of Oneida Community Silverware.

CASH COMMISSIONS

All other candidates who have been active throughout the contest, making a cash report each week, will receive a cash commission of ten per cent of the subscription money they have turned in.

Two grand prizes for which all candidates compete on an equal basis.

Each contest district must win at least three of the district prizes, besides have chance to win two grand prizes.

Cash commission if you don't win a prize. Everyone wins something. No chance to lose. Perfectly fair, isn't it?

DISTRICT DIVISIONS

District divisions are made only for the distribution of the district prizes. Candidates may work in any and all districts, taking votes and subscriptions anywhere.

DIVISION NUMBER ONE consists of the Voting Precincts of East Beaver Dam, West Beaver Dam, Cromwell, Cool Springs, North Rockport, South Rockport, Select, McHenry, North Centertown, South Centertown, Smallhouse, Ceralvo, Point Pleasant, Prentiss, Simmons, Render, Pond Run, Taylor Mines and Arnold.

AND EVERYONE WINS SOMETHING

"EVERYBODY WINS"

Rules of Contest:

Any person residing in territory reached by the Hartford Herald may become a candidate.

Receipt blanks and necessary supplies will be provided to contestants and their assistants without cost to them.

No employee, or member of the immediate family of an employee of the Hartford Herald may become a candidate.

Votes or ballots are not transferable after being credited. Should a contestant withdraw at any time the votes will be cancelled.

In the event of a tie between two or more contestants the value of the prize or prizes tied for will be equally divided among contestants tied.

The contest is now open and will close at 8 o'clock of the evening of September 9, 1922.

Contestants may secure or accept support in any or all districts, or anywhere, and secure any aid and enlist any support obtainable.

All subscriptions must be turned in to the Contest Manager within one week of date secured.

The votes due from subscriptions turned in by contestants and their supporters will be issued in form of a ballot. All such ballots may be reserved by contestants to be voted any time before close of contest. Contestants assume responsibility for correctness of ballots upon accepting them. Contestants entering the contest agree to abide by the rules. Refusal to do so, or continued use of unfair or of disagreeable methods, or plans against interests of the contest would disqualify them from further participation. The Contest Manager will act as referee in any question arising in the contest.

Candidates nominated but not wishing to continue in the race must notify the Contest Manager of their withdrawal either in writing or in person.

A limit governing the number of votes that may be published before the closing of the contest may be in effect from time to time.

Speedy correction will be made in case of typographical error or misprint, but no further responsibility is assumed. CONTEST NOW OPEN. ENTER YOUR NAME BY LETTER, PHONE OR CALL AT OFFICE

Take Votes and Subscriptions in any and all districts, or anywhere in the United States. Have other people assist you. Work any way or any place you desire. No restrictions of any kind,

A very short contest in which everyone will win something.

Address All Communications to

DAVIES COUNTY

LAND FOR SALE

2500 acres farm land near Owensboro in tracts to suit purchaser. This is wet land now being drained and is the richest land in Kentucky. If you want a tract to develop or a safe and growing investment, this is a wonderful opportunity. Terms one to ten years.

For further particulars address J. H. WICKMAN, Owensboro, Ky.

NOTICE

On the 5th. Sunday in this month at 11 o'clock, Rev. B. F. Jenkins, of Owensboro, will preach at the Green River Baptist Church near Cromwell All who possibly can come are invited, especially all the old people. Bro. Jenkins preached to this old historic church for many years during his earlier ministry. Come out and hear this old veteran of the cross.

Yours,
BIRCH SHIELDS, Pastor.

MR. ALBERT BOSKET DIS-
APPEARS FROM HOME

Mr. Albert Bosket, of the Centertown community, has been missing since July 4th. He is a widower and for some time had been residing with Mr. Marshall Harper, near South Carrollton, but spent the night of July 3rd. with the family living on his old home place near Centertown. The next morning he disappeared and although relatives have made diligent search no trace has been found.

It was at first supposed that he had gone to visit his brother, Mr. Wm. Bosket, of St. Louis, or sister, Mrs. Ed Durham, of Nortonville, but these relatives have not seen him. His friends do not believe he to this old historic church for many years during his earlier ministry. Come out and hear this old veteran of the cross. He is about 50 years of age, small

of stature, slightly stooped and usually wears a mustache. His complexion is rather dark. The Herald will gladly convey any news of his whereabouts to his relatives.

CERALVO

July 22.—Mr. and Mrs. Leonard Baker and children, of —, are the guests of Mr. Baker's parents, Mr. and Mrs. J. W. Baker.

Mrs. John Boone, of Echols, spent Sunday with her sisters, Mrs. Lee Tichenor and Miss Della Eudaley.

Mrs. Owen Jones is the guest of relatives near Evansville.

Several from this place attended the picnic at Livermore, last Saturday.

Mr. and Mrs. R. A. Danks, of McHenry, spent Sunday with Mrs. Danks' parents, Mr. and Mrs. P. L. Wood.

Mr. and Mrs. C. B. Everley and daughters, Misses Mary, Ora and Cora, attended the burial of Mrs.

Everley's brother, Mr. J. W. Brown, at Equality, Friday.

Mr. Henry Chancellor, of this place, and Miss Sofia Fulton, of near Echols, and Mr. Irles Duncan, of this place, and Miss Piccola Fulton, of near Echols, went to Rockport, Ind., last week, and were married.

Mrs. Ora Chinn, of Hopkinsville, is the guest of her sister, Mrs. J. M. Carter.

Mrs. Drusilla Barnard has returned home after spending several days with her daughter, Mrs. Cape Maddox, of West Providence.

Master Elwood Cundiff, who has been quite sick, is better at this writing.

Mr. and Mrs. Ullis James, of Centertown, visited relatives here last week.

Mrs. Mattie Stewart, of —, spent last week with her brother, Mr. J. M. Carter.

Mr. Arthur Everley, Mr. J. J. Hill and Mrs. Bennie Harrison are quite sick of fevers at this writing.

NOTICE TO TEACHERS

A two-days' Association of the Ohio County Teachers will convene at Hartford the 26th. and 27th. of July. The first day will be taken up signing contracts, securing record books, supplies etc. The second day will be spent with a program and general discussions of plans for the coming year's work.

All teachers are expected to be present without fail. There will be a special elementary examination for teachers the 28th and 29th of July at Hartford, Ky.

Mrs. I. S. MASON, Supt.

Jefferson School

Get The Best Style; It Costs Less

Some men seem to think it's expensive to be well dressed. It isn't. It's economy. The quality is so fine in the clothes we sell that you get longer wear. Hence the lowest possible clothes cost.

Hart Schaffner & Marx Clothes for Summer 1922 are here.

You'll find the coat lapels are a trifle longer and narrower. Buttons are spaced a little lower. The new Sport styles show many interesting features in pockets, plaits and belts. We are ready with all of them and will be glad to show you.
